Experience

TechRooot Technology   *Web AI Developer (Intern)*
Jul 2025 – Present

- Built and launched AI-powered web applications using generative tools and prompt engineering to accelerate front-end development.
- Integrated AI chatbots and automated website workflows to improve user engagement and reduce manual update time.
- Implemented responsive UI components and optimized performance (image optimization, lazy loading) to improve page load times.
- Collaborated with cross-functional teams to translate business needs into technical requirements and MVP features.

Selected Projects

My Safe Ride   *Front-end Developer*

- Developed a responsive car-rental website (HTML, CSS) focused on mobile-first UX, cross-browser compatibility, and accessibility.
- Improved performance by optimizing assets and structuring semantic markup for SEO and readability.

Kitabi Khargosh   *AI Web Developer (Client project)*

- Delivered a fully AI-driven website using no-code and generative AI tools; created an admin panel for non-technical client content updates.
- Automated content workflows and reduced content-update turnaround time via scripted prompts and simple admin interfaces.

Education

Bachelor of Technology (CSE)   LNCT Group of Colleges
Jul 2022 – Present

Certifications

- AI Tools and ChatGPT Workshop — be10x (Jan 2025)
